

Christopher Pool

(559) 274 - 2604 | christopherpool999@gmail.com | [LinkedIn](#) | [GitHub](#) | Riverside, CA

Education

Bachelor of Science, Computer Science

Graduated: Dec 2025

California State University East Bay - Hayward, CA

Projects

Full-Stack Ecommerce Site - [GitHub](#) | [Live Demo](#)

Jan 2026 - Feb 2026

React | Next.js | Node.js | Express | TypeScript | PostgreSQL | Docker | GitHub Actions

- Built responsive, user-friendly UI components using React, HTML5, CSS3, and TypeScript with optimization for usability and performance across devices
- Designed and maintained server-side REST APIs and backend services using Node.js/Express for authentication, data transformations, and transactional operations
- Worked with PostgreSQL database for data storage, schema design, and query optimization supporting user authentication, product catalogs, and order processing
- Wrote clean, maintainable, and well-documented code with Git version control; participated in testing, debugging, and deployment using Docker and GitHub Actions CI/CD

LLM-Powered Job Triage Agent - [GitHub](#)

Feb 2026

Node.js | Python | Claude API | Gemini API | Apify

- Designed and deployed software solution automating workflows by integrating multiple REST APIs with structured JSON output for data processing
- Built data pipeline with deduplication logic and documented design procedures; performed thorough testing to identify and resolve bugs
- Demonstrated ability to learn new technologies quickly and solve technical challenges in a self-directed environment

C Compiler Frontend - [GitHub](#)

Dec 2024 - April 2025

Python | C++ | Linux | Test Automation | Git

- Built lexer and LALR(1) parser generator in Python and C++ using BNF grammars with automated parse table generation
- Developed comprehensive test suite of 30+ cases covering edge cases and error handling; utilized Git for version control throughout development

Programming Languages: JavaScript, TypeScript, Python, C++, C#

Frameworks & Libraries: React, Next.js, Node.js, Express, .NET

Databases: PostgreSQL, SQL, Prisma ORM

Tools & Infrastructure: Git, Docker, GitHub Actions, CI/CD, Linux
